Barksdale Elementary and Rockdale County Public Schools are committed to providing a safe environment for your children. A check-in system has been provided for each school through a recent safety grant earned by the school system. We have implemented the *School Check-In* system as a way to increase our ability to monitor who is on campus. One of the main components that we will use in the front office will assist us in knowing exactly who is in the building at all times. **All volunteers and visitors who enter the building will have their driver's license or state ID scanned prior to checking out a student, visiting in a classroom, eating lunch, etc.** While we realize that this will be a change and may be time consuming at first, we do believe that this process is necessary for the safety of our students. Please assist us by having your driver's license ready as you enter the front office.   The information gathered by the system will also be critical to first responders, in case of an emergency. We appreciate your patience as we implement the first components of the *School Check-In* system.
